2. Household Consent				
	Mindset is carrying out a youth survey using a random sample in Jordan. Your household was selected within this random sample to participate in the survey. This survey aims at analyzing the wellbeing of youth and hence develop relevant research and policies to improve the wellbeing of youth in Jordan. Your co-operation would therefore be crucial to the success of this survey. Please note that your personal information will remain confidential by force of law and that the information provided is exclusively for scientific research purposes.			
	If you agree to participate in the survey, we shall be asking you questions about your household and asking youth about their social activities -- health -- education -- work experience -- time use -- and attitudes. The interview will take about one hour per youth and may take more than one visit.
